I. INTRODUCTION

This paper aims to examine this question, which was provided when the court concluded that the defendant should be sentenced to pay punitive damages to the criteria and standards should be adhered to in determining the amount of punitive damages?

Considering that there are many perspectives on this issue and the precedent has been treated differently, so check this on the most sensible and useful, it seems. Research methods, descriptive and analytical method that is used for documents and a library.

II. THE AMOUNT OF PUNITIVE DAMAGES

We examine this question in that was provided when the court concluded that the defendant should be sentenced to pay punitive damages to the criteria and standards in determining the amount of punitive damages should be adhered to? Campbell against, Stath farm judge and jury, defendant, sentenced to pay $2.6 million and 145 million dollars in damages to repair the damages were punitive and restorative supreme court also out with a $1 million deduction confirmed that punitive damages in this case was about 145 to repair the damage [1]. Maurice and Philip claims. Williams, Supreme Court of the United States the right to produce tobacco poor who die testate forward due to lung cancer had to pay 821 thousand dollars in damage repair and 79.5 million dollars in damages to punitive condemned the damage punitive about 97 times damage restoration [2]. According to statistics from 1985 to 1994, about 4 percent of the vote has been issued by courts of America to punitive damages in the amount of punitive damages in this Myardlysh of a million dollars is [3]. Sometimes in English and American courts issued opinions to 710 times the amount of punitive damages to repair the damage is [4]. The amount of punitive damages is to be mentioned in the past has been too much and sometimes not at all convincing, but it gradually increased its level in different countries [5]. To prevent a plurality of votes in these areas and prevent uncontrolled growth of punitive damages, some believe that the law should determine the amount of punitive damages, The maximum amount of punitive damages in the same Texas 4 times the damage or repair up to 200 thousand dollars [6], or the state of Florida in America in the amount of punitive damage claims from the ceiling of 500 thousand dollars has been identified. Or that economists believe that in order to have a large amount of punitive damages that may interfere in the business environment. The punitive damage laws to a maximum of three times the industry have been identified [7], in addition, laws in some states, it is believed that the judge and jury in this regard should not be limited because of heavy punitive damages to harm the economy and cause inflation and commodity prices are random; The convicted person to seek compensation through an increase in the price of your sentence is over, the United States Supreme Court declared that in case ratio of punitive damages and repair damage to a digit is 9 times the maximum, It has been objected to this idea; If one of the justices of America, said the amount of punitive damages should be the judge and jury to make judgments based on the type and circumstances of each case or in cases of Campbell V. State Farm punitive damages should be proportionate and the judge believed that the proportion of judges and juries recognize; Therefore, as noted in this case the verdict on the punitive damage amount was 145 million dollars [8]. The popular view is that the punitive damages should be proportionate and reasonable, although sometimes the value of punitive damages to the government (eg, claims of liability arising from fault) or by limiting that (eg, that to limit the reason to satisfy the conscience is clear) the plaintiff's desire and passion to have reduced the punitive damage claim. Given the comments above it seems that the amount of punitive damages is
III. CONCLUSION

We observed that the amount of punitive damages, different views and different opinions have been issued. Punitive damages in some votes for the amendment has been damaged several times. Some believe that the trinity to prevent multiple votes to determine the amount of punitive damages, In some States there is the belief that America should not give the judge and jury in this case is limited because it causes damage to the economy by raising the price of goods and sentenced to be back seeks compensation for his conviction. Some believe that the amount of punitive damages should be available to the judge and jury. The pool is well known that the punitive damages should be proportionate and reasonable. But it seems punitive damages should be based on circumstances and in any case be the case. It is undesirable to determine the minimum and maximum in the law.
